Dear Hiring Manager,

I am writing to express my interest in the Web & Search Specialist role at Porch Group. With 10+ years of WordPress and web development experience and 7+ years in SEO, SEM, analytics, and digital marketing, I bring a strong mix of technical SEO, content optimization, search performance reporting, and cross-functional execution. My background aligns closely with Porch Group's need for a detail-oriented, data-driven specialist who can improve organic visibility, optimize web content for user intent, and support pipeline growth through SEO/GEO strategy.

SUMMARY OF QUALIFICATIONS

Web & Search Specialist | SEO/GEO Strategist | Senior WordPress Developer

As a versatile and results-driven Web & Search professional, I offer a strong background in:

SEO/GEO Strategy: Developing and executing on-page, off-page, technical SEO, and emerging Generative Engine Optimization strategies for websites, landing pages, and content.

Technical SEO & WordPress: Expert-level WordPress experience with hands-on knowledge of crawlability, Core Web Vitals, site speed, XML sitemaps, robots.txt, accessibility, console errors, and performance optimization.

Search & Analytics Tools: GA4, Google Search Console, Google Tag Manager, SEMrush, Ahrefs, Moz, Google PageSpeed Insights, Power BI, HubSpot, Zoho, and Jira.

Content & Landing Page Optimization: Keyword research, search intent mapping, blog and website copy optimization, landing page improvements, user experience optimization, and performance reporting.

Technical Skills: HTML5, CSS/Bootstrap, JavaScript, PHP, MySQL, WordPress, WooCommerce, Shopify, Drupal, ManageWP, WP Engine, cPanel, server optimization, migration, backup, restore, and CDN/CLI support.

Data & Reporting: Translating rankings, organic traffic, conversions, Core Web Vitals, and campaign data into clear recommendations for marketing, content, product, and development teams.

AI Search / GEO Awareness: Understanding of AI search experiences including Google AI Overviews, ChatGPT Search, Perplexity, Claude, and emerging GEO practices for improving content visibility in AI-driven discovery.

My key strengths include:

- **Technical SEO:** Ability to audit websites, identify issues, and work with developers to improve crawlability, speed, and search visibility.
- **Analytical Thinking:** Strong ability to interpret data and convert insights into action plans.
- **Cross-functional Collaboration:** Experience working with SEO, marketing, content, client, agency, and development stakeholders.
- **Leadership & Communication:** Proven team leadership, client communication, mentoring, English/Hindi communication, and ability to work with US-based business teams.

WHY I AM A GOOD FIT

I am particularly drawn to Porch Group because the role combines SEO/GEO strategy, WordPress expertise, technical optimization, data analysis, and collaboration with product, sales, content, product marketing, and demand generation teams. My experience improving Core Web Vitals, optimizing landing pages, creating SEO dashboards, resolving technical site issues, and supporting content/web performance makes me a strong fit for this role.

I am comfortable supporting remote India-based work with EST overlap, including the 7:30 PM–11:30 PM IST core US-hours window, and I can collaborate effectively with US-based stakeholders.

Thank you for considering my application. I would welcome the opportunity to discuss how my SEO, GEO, WordPress, technical web, and analytics experience can contribute to Porch Group's growth.

Sincerely,

Aditya Shashikant Kadam
